

March 24, 1975

Dear Mr. Weisberg,

I am a student at William Paterson College in Wayne, New Jersey. I am doing Independent Research work on the J.F.K. assassination. If you would be so kind as to offer advise on how to carry out my work, I would greatly appreciate it.

I have read your four books, many articles, the New York Times edition of the Warren Commission's Report, R. Cullen's articles and Mark Lane's Rush to Judgment. I have also been working with a Professor at William Paterson who is knowledgeable in this matter, You may know him, Terry Ruppmaster.

I go down to Washington every few months. I would like to meet and talk with you next time I am down there if that is possible.

Thank you very ^{much} for any help you may give me. I greatly appreciate it.

Sincerely,
Harry Brandes.

P.S. Could you also inform me as to where I may obtain a copy of your book CIA White Wash: OSWALD IN NEW ORLEANS

3/27/75

Dear Mr. Brandes,

Generally I want to help others as much as I can. However, I have also done an enormous amount of research and investigation I have not yet been able to ~~fix~~ incorporate in my own planned writing. I have not been able to do any writing for six months now. At 62 I regret this much.

So, all I can do is tell you I'm willing to meet with you, subject to what I can't ever anticipate, other demands on my time to which I must give precedence.

The trip for Washington is about an hour, depending on starting point and time of day.

I recall correspondence with Mr. Ripmaster.

The book about which you ask finally appeared as Oswald in New Orleans. It did not print it and in fact did not get a penny from it.

I have a few copies for which I must ask \$21.00. Generally I do not let it be known that I have any copies. I hold them for those of sincere interest.

If you have further inquiries that require an answer I'd appreciate the time--save, slight as it is, of a return addressed, stamped envelope. I work an extraordinarily long day. It requires I hsuband minutes.

Best regards,
